FIRST AMENDMENT

June 15, 2011

Request for Proposals for REVENUE CYCLE SOFTWARE

Additional specifications for the Revenue Cycle Software should include:

Bill Estimation and Payment Processing, to include Contract Modeling Based Pricing Methodology, Integrated Eligibility Benefits Pricing, and Estimated Bill Adjustments to reflect a standard set of discounts and adjustments for patients not eligible for local, state, federal, or hospital specific financial assistance programs.

Propensity to Pay Scoring, to include verification of a patient's ability to pay using estimated income and a patient's likelihood to pay using a healthcare-specific risk score to enable us to determine appropriate financial clearance action.

Batch Eligibility Processing to process batch files as scheduled events or submitted on an as needed basis.

Automated MCO Verification when an HMO is indicated on a Medicaid or Medicare eligibility response.
