

**A. Holly Patterson Extended Care Facility
Family Health Centers***

July 10, 2010

Dear East Meadow Resident:

The Draft Generic Environmental Impact Statement (DGEIS), which studies the potential impacts that developing NuHealth's "Village for Healthy Living" might have within the East Meadow Campus and the surrounding community, is completed. Pursuant to the New York State Environmental Quality Review Act, NuHealth will be conducting a public hearing on the DGEIS on **Monday, July 19, 2010 at 6 P.M. at Nassau University Medical Center's auditorium** located at 2201 Hempstead Turnpike, East Meadow, NY 11554. Comments on the DGEIS are requested and will be accepted by the contact person until August 2, 2010.

Name of Action: Village for Health Living at Nassau University Medical Center /
Redevelopment of the Nassau University Medical Center Site.

Description of Action: The proposed action is the adoption of a Campus Land Use Plan and the redevelopment of approximately 35 acres of the 50-acre Nassau University Medical Center Campus consistent with the Campus Land Use Plan (January 2009, revised January 2010). The proposed redevelopment will include the reconstruction and expansion of medical resident housing, the development of health related research and medical office space, and health related commercial uses to complement the existing 19-story Dynamic Care Building. The 50-acre property will be re-subdivided as necessary to meet funding and/or leasing requirements. The land use plan for the campus includes plans for open space, new and redesigned parking, improved signage, pedestrian connections throughout the campus, and appropriate improvements to existing infrastructure necessary to accommodate proposed development.

A copy of the DGEIS may be obtained from the East Meadow Library or from our website at www.numc.edu or www.nuhealth.net. If you have any questions, please do not hesitate to contact me at 516-572-5834 or rbenrubi@numc.edu.

Sincerely,

Robert Benrubi
Counsel to the President/CEO
